EVIDENCE OF BULLISH MANIPULA-TION ON NEW YORK 'CHANGE.

More European Gold Received and \$1,750,000 Deposited at the Subtreasury-Local Markets.

At New York yesterday money on call was easier at 305 per cent.; last loan, 3; closed, 3 per cent.

Prime mercantile paper nominally, 7@2 per cent.

Sterling exchange steady, with actual business in bankers' bills at \$4.82% for demand and \$4.82%@4.82% for sixty days; posted rates, \$4.83@4.84% and \$4.85@4.86; commercial bills, \$4.81@4.81%.

Bar silver 66%c; silver certificates, 66@ 67c. At London bar silver closed at 30%d.

Total sales of stocks were 238,332 shares, including the following: American Sugar 12,-600; Burlington, 24,500; Chicago Gas, 8,200; General Electric, 5,300; Louisville & Nashville, 21,100; Manhattan, 8,800; Northwest, 6,000; Reading, 12,600; Rock Island, 69,300; St.

Paul, 37,400; Tennessee Coal and Iron, 4,300; Western Uuion, 5,038. The York stock market yesterday was uniformly strong and a moderate volume of business was well distributed. Sugar led the list in point of activity and gave tone to the general speculation on the evidence of manipulation upward by the powerful inside interests in the property. London was also a considerable factor, turning to the bull side after its recent selling. The operations from this quarter, as well as the domestic dealings, had, however, a strong professional flavor. An encouraging devel-opment also was increasing activity and pronounced strength in the railway-bond market on investment purchases. The improvement in this department is hailed with great satisfaction, being held by the traders to foreshadow continued strength in the better class of stocks. The speculation is still held in check, however, by the closeness of the time-money market. Further arrivals of gold from Europe were reported, bringing the total amount received since the movement was inaugurated in since the movement was inaugurated up to \$6,500,000. Of the \$3,075,000 received to-day \$1,750,000 in coin was deposited at the sub-\$500,000 in gold bars was placed in the as-say office and the rest was deposited in move upward in a fairly buoyant tashion, despite the continued publication of discouraging traffic reports, business disasters and the apparent contest between the railroads in various parts of the country, and particularly the South and Southwest, to see how much money can be thrown away in competition. The opening was strong and fractionally higher on the improvement

in London quotations and covering of shorts for that account and for local deal-The internationals and grangers were in chief request in the initial trading, with Sugar and Manhattan also contributing measurably to the dealings. Reading was dealt in third assessment paid and touched 14 at the outset. As the forenoon progressed the bull movement assumed greater spirit and extended to a number of the coalers displayed continued aggressive strength on moderate transactions, Reading rising to 15%. The market displayed spurts of activity, and at intervals large-sized blocks of stocks changed hands. Eventually the highest prices in the present move-ment were recorded in a number of instances, covering of shorts being noted on an extensive scale. At the high point for-eign offerings appeared, and realizations for local account also occurred, but were offset by an easier tendency in exchange and in call-money rates. Around delivery hour further fractional concessions occurred, but in the late dealings renewed strength was displayed. The extreme gains

There is a distinct increase of confidence

due largely to the continuing and heavy

imports of gold, which have put an end

to money anxiety, and also to political

events, which are closely watched. While

it does not yet start more mills and fac-

tories than are closing for want of work, confidence crops out in heavy speculative purchases of pig iron, wool and some other

materials by experienced men, who believe

that a revival of business is not far off.

They were a distinct disappointment and helped materially to break the price of December %c below yesterday's close. Corn broke %c, closing at the lowest point ever recorded for futures. Oats declined 4c, and provisions 2126 10c. Six Transfers, with a Total Consider-

Wheat in the field was nipped by a freezing temperature last night as had been generally expected. This element was expected to be a strengthening factor and December, which closed yesterday at 59@ four hours ending at 5 p. m., Sept. 4, 1896, as 5014c, opened with sellers at from 5874c down to 58%c; in about an hour from the opening it was selling for a moment at 8%c. Besides there was disappointment at the steadiness in prices of Liverpool, where an advance was looked for commensurate with that experienced here yesterday. The Northwestern receipts were also large, amounting to 848 cars, and the impression prevailed that as soon as freight traffic is resumed on the Northwestern roads the accumulations on the side tracks would pour in and there was some talk of some cars Monday. The stocks 2,000 of the Northwest will show an enormous increase this week, Duluth adding 850,000 bushels to her stocks, while Minneapolis will decrease only 150,000 bu. A week ago these two points decreased something like 1,250,000 bu. This was naturally discouraging and had the effect due to it. About 12 o'clock December was selling at 584c. The extremity of the bearish feeling was reached about 12 o'clock and a temporary reaction set in, December rising from 584c to 585c. The recovery was ascribed to the taking of 140,000 bushels of spring wheat for export and the general tone of foreign advices. Great firmness in the New York stock market was also potent in creating better feeling. The fear of heavy receipts in the Northwest in the near future and a big Montana bank failure were the latest influences and under it the price declined again to 58% @55%c, those being the closing

> Corn was rather heavy, partly because of the downward tendency of wheat, but principally from the nonappearance of frost predicted for last night. Business was only predicted for last night. Business was only moderate. December opened about 1/3c lower at 24/5c, fluctuated within a 3/3c margin, and closed easy at 24/3c, the lowest point ever reached for futures.
>
> Oats were slow and weak, September suffering the most as there was active liquidation in that month and May was also leavy. The decline in wheat and the weakness in corn were potent factors. May opened 1/3c lower at 18/3/4/18/3c and declined to 18/3/4/18/3c, closing easy at 18/3/4c.
>
> Provisions were heavy and lower, starting weak and failing to get over it though ing weak and falling to get over it though there was a slight reaction during the last hour. Packers made liberal offerings, but the demand was too limited to absorb them and a decline was the result. January pork closed 10c lower at \$5.65; January lard .05c lower at 3.62½c; January ribs, 2½c
